26 March 1964

Chief, Western Hemisphere

LINCOLN

Operational
Documents Extracted from the Guatemalan
Consulate in San Pedro Sula, Honduras

1. The attached documents were forwarded to LINCOLN by Stephen R. LUGTON who received them from CALLIGERIS several days ago. CALLIGERIS stated that approximately two months ago his men entered the Guatemalan Consulate during the night and took from there whatever they could get their hands on. LUGTON is endeavoring to obtain further details on this entry, which LINCOLN will forward as soon as they are available.

2. It is requested that communications code specialists be given the cables.

3. Please take especial note of Attachment 10 (only photocopies are numbered), which is a letter from Humberto GONZALEZ Juarez, Private Secretary to the Presidency of the Guatemalan Republic, to Raul PEREZ, Guatemalan Consul General in San Pedro Sula. **[**

From; Andres

1. Attached are several copies of cables and telegrams, some in clear text and some in cipher, which according to Pancho were extracted from the Guatemalan Consulate in San Pedro Sula by his men about 2 months ago. The men went into the Consulate at night and burglarized what they could get their hands on. I was never informed of this until Pancho gave me these documents, and several other scraps of paper of no particular interest, several days ago.

2. Am endeavoring to check on the exact date of the burglary and other pertinent details, and will let you know.

3. Attached also is a letter taken during the same heist. Letter is from Humberto Gonzalex Juarez to Raul Perez the Guat Consul in San Pedro Sula. Nothing of interest in the letter, but am submitting it in the hopes that the signature and stationery may prove useful someday if we ever need to duplicate either.
